Other apps give you one parent's number. Aspire91 gives you a whole group of students, in one place, ready to start.

Parents living near each other join together before they contact any coach. Two families are enough. They decide what they want taught, which days suit them, and where the class should happen: their society clubhouse, a park, or a community hall. You get one request for all of them. You reply once, and you have a full batch.

Academies can see what parents in each area are asking for before starting a new batch. Listing is free. We take no commission on your fees.

Four ways to grow on Aspire91

WHAT'S INSIDE

GROUPS
A full group, not one enquiry
Parents nearby agree on the class, the days and the place. They come to you as one group, and you reply once.
Page 2

DEMAND
Know what your area wants
See what parents near you are asking for, so you start a batch where students are already waiting.
Page 2

YOUR SPACE
A page parents read
Photos, videos and updates from your sessions, on a page of your own.
Page 3

EVENTS
Tournaments and showcases
Run your own events, or send your students to the ones Aspire91 arranges.
Page 3

Individual coaches

Teach at home, in a park, in a society clubhouse or at the family's place. Choose the areas you will travel to.

Academies and centres

Start batches where parents are already asking, by area, age and subject. Show your centre on your Space, and keep every enquiry in one inbox.

Organisers

Run tournaments, workshops and showcases. Aspire91 handles the entries and the list of who is coming.

List now, and be ready when your area opens

We open one area at a time. Make your listing now and choose the areas you cover, so you are already there when we open yours.

www.aspire91.com

HOW A GROUP REACHES YOU

Parents agree the details first. You only have to say yes.

A group reaches you complete: how many children, what they want to learn, which days, and where. You do not need three phone calls to find out the basics.

What they want taught · Age and level · Where they want it taught · How many children · Days and times · What they expect to pay · How far they are from you

How it works

1. **Make your listing**
   What you teach, the areas you cover, your fees, and the days and hours you are free. You can change any of it later.
2. **We check your listing**
   A real person checks that you teach what you say you teach, in the areas you picked. This keeps parents safe, and is fair to the coaches already here.
3. **Parents start finding you**
   Parents searching in your areas see you and your Space. Only the areas and subjects you picked decide who sees you.
4. **Reply and chat**
   Answer in the app and keep chatting there. Mark each enquiry as called, scheduled or closed, so you never lose track.

GROUPS

One reply can fill a whole society

Two families living near each other who want the same class can start a group. No other app does this.

- **They choose the place.** A society clubhouse, a park, a community hall or an apartment lawn. Somewhere all of them can walk to.
- **They agree everything first,** then it comes to you as one request for all the children.
- **You answer once,** and every family in the group sees your reply.
- **They decide how long** the group stays open.

Your number stays yours
Parents contact you inside the app. You decide if and when to give them your phone number.

Every listing is checked
A real person checks every listing before parents can see it. You do not have to do anything after you send it.

Know before you start
You can see what an area is asking for before you put a coach or an hour on it. We also open one area at a time, so these are real neighbours, not a wide radius.

TURNING COACHING INTO A BUSINESS

The same hour, taught to four children instead of one.

Groups, your own page and your own events. Three ways to earn more from the hours you already teach, and to grow your sport in your area.

GROUPS AND BATCHES

Teach more children in the same hour

Travel and waiting take up more of your day than teaching does. A group removes most of it.

One trip, many children

A group is several children in one place at one time, at a place they chose. One journey, one hour, one batch.

You decide the fee

Per child, per batch or per month, whatever you already charge. Aspire91 never sets your price.

Example One family **1 slot** → A group of 4 **1 slot**

Same hour, same travel. Four fees instead of one.

YOUR SPACE

Show parents what you do

Parents trust what they can see. Photos of last Sunday's class tell them more than a list of your qualifications.

Post your classes

Photos, videos and updates from your classes, on your own page that parents read while they are deciding.

Families can follow you

Parents who joined stay in touch, and parents who are still deciding keep seeing your work every week.

EVENTS

Run your own events

A tournament brings families to you quickly. It is the fastest way for a new coach to become known in the area.

Run it through Aspire91

Tournaments, workshops and showcases. Families enter through the app, and you see who is coming.

Or enter the ones we arrange

Aspire91 arranges competitions too. Send your students to those, so they get to compete without you organising anything.

WHAT IT COSTS

Nothing right now

Listing is free, and running events is free too, while we are starting out. If that ever changes, we will tell you before it happens, not after.

YOUR MONEY

Aspire91 never touches your fees

You agree the fee with the family and they pay you directly. We take no commission, and we never handle your money.

THE DAY TO DAY

Everything you need to run your coaching, in one app.

No separate diary, no scattered WhatsApp groups, and no enquiry that gets forgotten because it came in while you were on the field.

YOUR SCHEDULE

Show when you are free

Set the days and hours you can teach. Parents see them before they ask, so you stop trading messages about timings.

QUERIES

Questions before they commit

Parents can ask you something first. Every question comes to one place, and you answer when you have time.

FIRST CLASS

Fix a trial class in the app

Suggest a date, a time, how long it runs and where. The family confirms it, or you suggest another time.

TRIAL FEE

Free or paid, your call

Whether you charge for that first class is between you and the family. Aspire91 never handles the money, so it stays your decision.

ONE INBOX

Nothing gets lost

Requests, replies and chats in one list. Mark each one called, scheduled or closed, so you always know what is pending.

COMPETITIONS

Give your students a stage

Run your own events, or enter your students in the competitions Aspire91 arranges. They compete, and you organise nothing.

Create your listing today

What you teach, where you teach, and what you charge. A real person checks it, and then families near you can find you. The Android app is coming soon.
